

Q: It appears there is a discrepancy in the budgetary data as the RFP document on page 6 references \$1.85 million of WIA funds. The data on page 3 of the Bidders Conference Document mentions that anticipated funding for PY14 is \$900,000 for Youth and \$1.5 million for Adult and Dislocated Worker. That adds up to a total budget of \$2.4 million. Can Grow Southwest IN WIB clarify which number is accurate including the breakdown between Adult & DW vs. Youth budget?

A: The Service Provider Proposal budget should be prepared based on the estimated funding of \$900,000 youth, \$1.5 million Adult and Dislocated Worker. The actual amount of unspent current year funds carried into the new year will determine the contract's actual budget.
